OBJECTIVE

Results-driven Software Engineer and Project Manager with 4 years of professional experience in full-stack development and project leadership. Expert in building scalable mobile applications (Flutter & React Native) and modern web applications. Proven ability to lead cross-functional teams, deliver high-quality products on time, and drive technical excellence. Seeking a software engineering role where I can contribute hands-on development and strategic leadership in a dynamic environment.

EDUCATION

Software Engineering

UNIYAT Practical Institute - *October 2023*

UDEMY

- Complete Web Development from Scratch – HTML5, CSS3, and JavaScript [ES6+]
- Python Complete Course, CSS, JavaScript and PHP full course
- React.js Course, Tailwind CSS, Android Development Fundamentals, Networking Fundamentals •

  Microsoft Fundamentals of Machine Learning

TECHNICAL SKILLS

- Languages: Flutter, React Native, JavaScript [ES6+], TypeScript, Java, Python
- Frameworks/Libraries: React.js, Next.js, Svelt, jQuery, GSAP, Bootstrap, Tailwind CSS
- UI Components: NextUI, Material-UI, Ant Design, Chakra UI, Shadcn UI, Tailus etc.
- Developer Tools: VS Code, IntelliJ IDEA, Eclipse, Android Studio, Git, GitHub, Docker etc.
- Familiar With: Nestjs, Node.js, Express.js, SQL/MSQL, MongoDB.

EXPERIENCE

Full-Stack Software Engineer & Project Manager – Bisame Digital Limited | Feb 2025 – Present

- Serving as Project Manager and an Engineer, overseeing the full project lifecycle, communicating technical progress to stakeholders, and completing delivery on time within 4 months.
- Single-handedly planned, architected, and developed a high-performance cross-platform mobile app using Flutter, implementing clean architecture and best engineering practices.

- Developed a high-performance web application using Next.js on the frontend and integrated a custom NestJS backend API from scratch.

Software Engineer Intern Fleet-Labs GH | Feb 2022 - Present

- Contributed to code reviews and debugging processes, enhancing code quality, efficiency and implemented software solutions.
- Developed a freelance website using React.js, focusing on improving its functionality and user interface.
- Enhanced the company's main existing website using React.js, resulting in improved user engagement and performance.

Full-Stack Software Developer – Msoft Ghana Limited |Jun 2023 – Dec 2024

- Developed a full stack e-commerce website with an admin dashboard.
- Built a school admission website using React.

PROJECTS

Bisame Mobile App (Flutter) Bisame Digital Limited

- Single-handedly planned, architected, and developed a high-performance cross-platform mobile app using Flutter, implementing clean architecture and best engineering practices.
- Designed a modern, intuitive UI/UX that significantly increased app installs and user retention.
- Implemented state management with Flutter Bloc and oversaw full backend implementation and integration from scratch to deployment.
- Managed the entire project end-to-end as Project Manager, delivering on time within 4 months while communicating complex technical decisions to stakeholders and management.

Bisame Web Application – Next.js & NestJS Bisame Digital Limited

- Developed a high-performance web application using Next.js on the frontend and integrated a custom NestJS backend API from scratch.
- Implemented real-time features with Socket.io and secure social authentication (Google & Apple Sign-In) across both web and mobile platforms.
- Delivered a modern, responsive UI/UX that contributed to increased user engagement and retention.
- Served as Project Manager and a developer, overseeing the full project lifecycle, communicating technical progress to stakeholders, and completing delivery on time within 4 months.

Comprehensive School Management System Dashboard

- Developed a premium Management Information System (MIS) using **Next.js** and a **MySQL** database, streamlining operations for students, parents, teachers, and administrators. Key features included comprehensive management of student, parent, and teacher profiles, automated timetable generation, and real-time fee tracking, all supported by interactive dashboards for data visualization and detailed reporting.
- Implemented secure authentication methods with **bcrypt** and **Next AUTH**, enhancing user security and access control while improving system efficiency, transparency, and scalability for data-driven decision making across the institution.

Logistics Management System & Website

- Developed a comprehensive logistics management system featuring a public website for service viewing and shipment tracking, alongside an administrative dashboard for portfolio and service management, utilizing React.js and Node.js with Express.js.
- Implemented a secure backend API for data exchange and a robust user authentication system using bcrypt, enhancing operational efficiency and data security. **Explore more projects at** My GitHub | My Portfolio

CORE SKILLS

- Critical Thinking, Communication, Adaptability, Organization, Leadership, Multitasking, Reflectiveness, Microsoft Office Suit, Coding and Troubleshooting, Goal Oriented, API Development & Integration, Database Management, Version Control, Collaboration.

LEADERSHIP EXPERIENCE

- **Project Manager – Bisame**
  Led to restructure, standardize technical and development process to correct a previous product failure.
- **Head of Academics at Stariua Preparatory School**
  Successfully guided a cohort of BECE candidates in computing, achieving a 96.4% success rate.
- **Development Team Lead - GISE**
  Led a development team in the successful creation of a mortgage listing application, overseeing project planning, execution, and delivery while ensuring adherence to best practices and timelines.
- **Head Prefect**
  Served as Head Prefect in high school, representing the student body and leading initiatives to enhance school spirit and student engagement, while fostering a positive and collaborative environment among peers.
